

What have you been doing? What are you doing now?

Aloha Kalihi Kids,

I thought it would be fun to find out what everyone has been doing since graduation. If you would like to send me your personal biography I'll put them together in a book.. I hope to have it completed before our 40th reunion in 2005. That should give everyone plenty of time. You could email it to me or write it out at the kitchen table, put it into an envelope and send it to me by snail mail. If you still have questions, or if you need help getting the information to me email, call, or write me. You can include photos, business cards, and articles. Don't forget to include your name. Your address, phone number, email address is optional. Here's my information:

An autobiography is information about your own life. Use interesting facts to explain as much about yourself as you can. Only write about what has happened since graduation. You can write in chronological order to make it easier for you. You can use as much or as little detail as you want. It can be pages long or just a paragraph.

I've listed suggestions and an example below. Please feel free to skip any topic or add your own. These are just suggestions to help you.
